Is the increase of +24 red sites unusually large?
Visits corrected for donors 5 and 8 · 9,999 unrestricted shuffles
Shuffled change < +24
Shuffled change ≥ +24
Observed change: +24
Shuffled median: +1
Observed: 158 → 182 (+24)
1,880 / 9,999 shuffles ≥ +24
Upper-tail permutation p = 0.1881
